test-02 / Electrical attributes

Parameter	Value
Article type reference	SL-TEST-202
Power under rated operation	900000 mW
Power input potential	24 V DC
Current taken from supply terminals	2 A AC
Total mass including shipping carton	12 kg
Permitted ambient during storage	95 C

Printed values and units are authoritative; unresolved fields require human review.

test-02 / Mechanical attributes

Parameter	Value
Weight of unpackaged equipment	4 lb
Highest temperature permitted in service	65 C
Enclosure sealing IP classification	IP65
Minimum temperature for operation	-10 C
Serial identifier of individual unit	SN-TEST-991
